

**Credit River Township  
Meeting Minutes  
April 7, 2008**

**Public Hearing  
Judicial Road Improvement Project**

6:00 p.m. Vice Chair Leroy Schommer called the public hearing to order.

**Background**

Township Attorney Bob Ruppe explained the purpose of the meeting tonight is to determine if the project should go forward. The board has six months from the date of this public hearing to make that decision. This public hearing will be continued on April 21<sup>st</sup>, 2008, because the statute required legal notice of the public hearing did not get published in the newspaper. All residents affected by this proposed improvement project will receive a second notice mailed to their property regarding the continuation of the hearing. The meeting tonight will be used to gather resident input and the board will make an official decision at the next meeting. Residence attendance will not need to be duplicated at the next meeting.

Township Engineer Jeff Elliott presented this general information to the residents:

- Judicial Road is shared by the City of Lakeville and Credit River Township
- Proposed project cost will be shared by both municipalities
- Road is two miles in length, approximately twenty four feet in width with an additional foot of gravel shoulder on each side.
- Road not built to township standard
- Like to have project completed within twenty one days, by June 30, 2008

**Road Construction Damage Claims:**

- Contacted both county engineers about damage to Judicial Road during 185<sup>th</sup> Street construction
- Neither engineer acknowledged any responsibility for repair to Judicial because of construction traffic
- City of Lakeville posted road at a five ton weight limit to protect Judicial Road
- Northern end of road was rebuilt as part of 185<sup>th</sup> Street construction and both county engineers felt that could be construed as a contribution to the Judicial Road improvement project

**Improvement cost determination and assessment calculation:**

- Independent testing firm hired to evaluate existing pavement and help in design recommendations
- Road counts conducted to evaluate usage
- Plans and specs were ordered after compiling data results
- January 2008 advertised for bids
- Low bid was a good bid by McNamara Construction at \$232,000
- Credit River Township pays half at \$116,000
- Gun Club pays 10% so about \$11,600, the rest will be divided up with twenty direct access lots will pay a portion and twenty-one nondirect access lots will pay a half portion.
- If the township does not contribute any money toward project, direct access lots will pay \$3448.50 each and not direct access lots will pay \$11
- Engineer recommendation that the township pay 25-50% cost of Credit River portion of \$116,000

**Road Count Study**

Several questions were asked and answered by Engineer Jeff Elliott regarding the road count performed by Scott County

- The study was conducted for approximately a twenty four hour period.

- Counters were placed at the north and south end of Judicial Road
- Results indicated 40% of traffic is pass through, or non-residential
- Results indicated the majority of traffic exits at the north end of the road
- Residential traffic from 195<sup>th</sup> Street could be viewed as usual use but extremely difficult to assess without eliminating other routes
- Count was conducted mid week but data was put into report format that extrapolates weekend usage

**Residents wishing to address the board were asked to approach the podium and identify themselves for the record.**

**Tina Beehler – 9720 Towering Oaks Curve**

Ms. Beehler read a letter drafted by her husband formally objecting to the assessment. Three items for consideration a) Statute 429 requires taxing authority to assess only with benefit, b) assessment must be uniform and c) value of the benefit must not exceed the assessment. It is their feeling that there will be no increase to the market value of their home and that the repaving should be viewed as regular road maintenance, not an improvement. Attorney Bob Ruppe recommended that this be addressed again at the assessment hearing, and not just the improvement hearing, for consideration.

**Jack Armstrong – 19700 Judicial Road**

Mr. Armstrong thanked the board for their time and said he appreciated the job they do. Jack had several items for consideration. The traffic speed is frequently excessive and Mr. Armstrong has made several calls to the sheriff's department to address safety concerns because of the speed. Another item for consideration is that the road isn't really in that bad of shape and should last quite a while yet – worse roads exist. Should Scott County be paying for this road? The road counting study should be reevaluated. Construction traffic from trucks ruined the road and now a handful of residents are paying for it. Why does this project need to be rushed and completed in June? Will the suggested improvements truly increase property value? Just adding blacktop isn't doing it right.

**Charlinda Scharbinger – 19176 Judicial Road**

Ms. Scharbinger stated the road does need to be repaired. The real issue is the question of what is a fair assessment for the cost. The price would be easier to bear if the cost were shared among more property owners. Ms. Scharbinger recommended changing the process so the road improvements get paid by the residents that use them. She has a friend that lives on 195<sup>th</sup> Street that uses Judicial Road as a primary route to work. Supervisor Brent Lawrence asked what Ms. Scharbinger felt would be a fair contribution by the township – she replied the traffic count study showed 40% pass through traffic and that percentage should be paid by the township. Resident Greg Brown stated that the proposed comprehensive plan identifies this road as non-traditional. Credit River Township should pay the difference between a traditional road and a non-traditional, if the township could evaluate the difference.

**Alan Meehan – 9690 Towering Oaks Curve**

Mr. Meehan observed it appeared as though the project will go ahead. He reiterated that a handful of residents shouldn't bear the cost and it should be done right.

**Mr. Rogozinski – 20112 Judicial Road**

Mr. Rogozinski stated that the grooves from the truck damage during 185<sup>th</sup> Street construction are clearly visible. Who collects the wheelage tax he has to pay? Mr. Rogozinski stated that road speeds need to be reevaluated for safety and enforced.

**Ward Larson – 19380 Judicial Road**

Mr. Larson stated that the Gun Club should pay a greater percentage of the cost of improvements, maybe twenty percent. He also inquired when the assessment hearing would take place. Attorney Bob Ruppe said that would be after the project is completed. At that time, objections must be received in writing.

Resident Tina Beehler expressed frustration that there seemed to be a lack of effort to pursue claims of damage from the construction truck traffic. Supervisor Bruce Nilsen stated that a formal request hasn't been made because potential compensation might be prorated because of the road's age.

Supervisor Bruce Nilsen made a motion to continue the improvement public hearing for the Judicial Road project on April 21, 2008, at 6:30 p.m. Supervisor Brent Lawrence offered a second. All in favor, motion carried.

## **Regular Meeting**

### **Call to Order**

Acting Chair Leroy Schommer called the meeting to order at 7:20 p.m.

### **Members Present**

Vice Chair Leroy Schommer, Supervisor Bruce Nilsen, Supervisor Brent Lawrence

### **Others Present**

Township Treasurer Holly Batton (taking minutes in Clerk Jerry Maas' absence), Township Engineer Jeff Elliott, Township Attorney Bob Ruppe

### **Meeting Minutes**

Treasurer Holly Batton read the minutes from the March 17, 2008, meeting.

Supervisor Bruce Nilsen made a motion to accept the minutes amended as noted, Supervisor Brent Lawrence offered a second, all in favor motion carried.

### **Sheriff's Report**

None this evening.

### **Open Forum**

Tom Kraft – Territory (Letter of Credit) LOC Questions

1. Mr. Kraft wanted clarification of Territory LOC expiration in August.  
Attorney Ruppe replied LOC language stated auto renew on one page, only until expiration date of August 2007 on another. This LOC expired and was not able to be renewed.
2. Mr. Kraft wanted to know if the LOCs from Territory addition 2, 3, & 4 could be used to cover costs that may be occurred from Territory addition one.  
Attorney Ruppe replied that the LOCs are not tied to use for any specific addition and can be used as needed for any Territory addition per the terms of the developer agreement and LOC.  
  
Supervisor Bruce Nilsen stated that if the township draws on the Letter of Credit and runs short at the end of the project, we will definitely feel the loss of that lapsed LOC.

Bill Jennings – Town Hall Availability

1. On agenda for later, can it be addressed under Open Forum, board indicated OK.
2. Is the town hall available for resident usage?  
Attorney Ruppe stated he had drafted the original town hall policy years ago. Treasurer Batton had found an entry in the meeting minutes that the board had decided against renting the hall any longer due to septic system pumping costs (>\$200 each time) and security system complications.

Citizen input included: Town hall should be available for resident use, issues not insurmountable, charge fee to cover costs, do cost analysis, don't use for parties, legal documents should be secured, charge per head, set up temporary security codes, investigate remote security options, replace plumbing fixtures, could be valuable community resource, collect deposit, smoke detectors and the security system.

Supervisor Brent Lawrence pointed out that the Republican Caucus was held at the hall and Supervisor Leroy Schommer replied that the board was unaware of the clerk telling those people as well as others that they could use the hall despite the board decision earlier.

Supervisor Bruce Nilsen asked what the Credit River Citizens for Change (CRCC) group was about and how was it different from the Citizen Advisory Group (CAG). Bill Jennings responded that the CCRC is working to improve the township, increase voter turnout, working on candidate forum, admitted certain agenda items provoke attention. Resident Greg Brown stated that the CAG is not political. Resident Ruth McCleod stated that the CAG had reviewed all township ordinances and now was working on reviewing the proposed comprehensive plan. Ruth said the CAG is an intermediary group and not involved in any personal projects or endeavors.

Supervisor Bruce Nilsen stated the board appreciates the increased attendance and to please communicate with the board – they welcome questions/concerns.

Action: Supervisor Schommer asked if decision by the next meeting would be adequate and Bill Jennings indicated that would be satisfactory.

### **Jason Allen - Request Recommendation for Preliminary/Final Plat Approval**

Engineer Jeff Elliott reviewed the proposed project stating the applicant wishes to divide his one larger lot into three lots north of 210<sup>th</sup> Street and east of Nevada Avenue. The board recommended approval with the following conditions:

- A. The preliminary plat and resource management plan shall show a 30 foot wide building setback from the east property line of Block 1, Lot 2. The building setback is currently shown at 60 feet wide, however the Scott County definition for a corner lot states: Lot Line, Front – That boundary of a lot which abuts a publicly maintained street, and in the case of a corner lot both lot lines abutting streets shall be considered front lot lines. The remaining lot lines shall be considered side lot lines. Block 1, Lot 2 is a corner lot.
- B. After the wetland field verification, when the plats and plan are updated, a drainage and utility easement shall be shown over the wetlands and drainage routes, as applicable. It appears that at a minimum, a drainage and utility easement will be required over the northwest corner of Block 1, Lot 1 and over the east side of Block 1, Lot 3.
- C. The Township should collect upfront the \$2,500 per lot road fee for the two new lots as part of the final plat process; for the construction of the temporary cul-de-sac.
- D. The applicant should provide a temporary construction easement for the construction of the temporary cul-de-sac.
- E. We recommend the applicant acknowledge that pursuant to Credit River Township Ordinance 2007-03 relating to Fees for New Development and Building Permit Fees, Section 2, Subdivision 3, which states as follows: “Lot with a driveway to a gravel township road or a township road that does not meet current township road standards-\$2500.00. The lot will be subject to assessment for any subsequent initial paving of the township road.” As such applicant shall be responsible for paying the \$2,500 referenced above as well as any future assessments relating to subject roadway.
- F. The town board recommends to the county that a three way developer agreement is not required with this plat.
- G. At the time of reconstruction of 210<sup>th</sup> Street, the driveway of Lot 1, Block 1 of said plat must be corrected so as to be perpendicular to 210<sup>th</sup> Street

Supervisors Brent Lawrence and Leroy Schommer will attend county board meeting the following Monday. Treasurer Holly Batton will obtain Deputy Clerk signature on Recommendation Form and forward to Jason Allen and Scott County.

### **Engineers Report**

1. Review and Approve Bids for Lawn Care, CSTS Mound Mowing, Ditch Mowing and Rock purchase.

There was only one bid received for ditch mowing. Bidder was TJ Deutsch Ditch Mowing. Supervisor Bruce Nilsen made a motion to accept this bid for ditch mowing, Supervisor Brent Lawrence offered a second, all in favor motion carried.

Two potential suppliers bid for the rock purchasing proposal. Because of the distance of one of the suppliers, Engineer Jeff Elliott recommended considering the rock hauling bid to help determine value or cost savings because the hauling costs could negate potential savings from accepting the lower bid.

The mowing proposal for lawn care and CSTS mound mowing received three widely varying bids. Engineer Jeff Elliott would like to rebid in order to insure adequate understanding and direction. Supervisor Bruce Nilsen recommended rebidding with request for separate bids for park mowing and septic mounds. Supervisor Leroy Schommer stated that this was his impression of how it was to have been done in the first place and this is why all publications need to be reviewed by supervisors to insure accuracy of board intent.

Supervisor Bruce Nilsen made a motion to reject all the bids and require new bidding separating the mound mowing from the weekly park mowing. Supervisor Brent Lawrence offered a second. All in favor, motion carried.

#### Approve Proposal for Rock Hauling

The board reviewed the proposal to be published requesting bids for rock hauling. Supervisor Leroy Schommer requested deadline of June 1, 2008 to be added and that the proposal be submitted for publishing in the April 12, 2008 edition of the paper. The board is requesting proposals be submitted on or before April 21<sup>st</sup> at 7:00 p.m. The board will meet to review and open bids.

#### **Doug Johnson – Gravel Road Maintenance Information**

A fax was received from Art Johnson Trucking with suggested amounts of rock needed for the following gravel township road: Webster – 250 tons, 167<sup>th</sup> Street – 375 tons, Bridle Path – 150 tons, Flag Trail – 250 tons, 210<sup>th</sup> Street – 500 tons, Creekside Circle – 150 tons, and the southern side of County Road 75 - maybe 800 tons. The board added Nevada Avenue per a resident request.

#### **Treasurers Report**

1. **Transfer \$10,000 from savings to checking**

Supervisor Bruce Nilsen made a motion to approve a request to transfer of \$10,000 from the township savings account to the township checking account. Supervisor Leroy Schommer seconded the motion, all in favor, motion carried.

2. **Policy Status**

The policies approved at the March were signed by the supervisors. These included: Account Adjustment and write-offs, Certification Procedure for CSTS Emergency Repair, NSF Charges, Certification Procedure for Unpaid Monthly CSTS Charges, and Electronic Payment Approval. Additional policies reviewed but not approved at the March 3, 2008 meeting were reviewed and approved. These were Developer Administrative Costs, Expense Reimbursement, and Earned Interest Process. One additional policy was reviewed and approved – Legal Notice Publication.

3. **Discuss policy on paying the moderator at annual meetings.**

Attorney Bob Ruppe and Resident Greg Brown researched quickly and found that the township does have the legal right to pay annual meeting moderators. The board decided to put this on the agenda for the next annual meeting for resident consideration and decision.

4. **Township Website Options**

There was much discussion from the attending residents regarding website options: keep it simple, helpful to have information about activity like the Allen lot split, advertise in township area for help, nice to have information about upcoming candidate forum date and time, and discuss with neighboring entities.

Attorney Bob Ruppe stated that clerk Jerry Maas volunteered to give up the domain [www.creditrivertownship.com](http://www.creditrivertownship.com) in exchange for ownership of the township laptop he has in his possession. Some of the board indicated this would not be acceptable. Supervisor Bruce Nilsen stated he would prefer the township obtained a domain with the .gov suffix for a more official appearance and that if the township were to have control of the clerk's former unofficial website domain, it would be only to redirect people to the official website. Supervisor Brent Lawrence inquired if the treasurer wanted to be the responsibility of the website and would the board want the treasurer to have that responsibility. Treasurer Holly Batton responded that while she would like input as to content, she does not have the time to devote to the project. All agreed that getting an official township website up and running is extremely important. Supervisor Brent Lawrence suggested a meeting with the web designer of the Spring Lake Township website. Supervisor Bruce Nilsen said he would like to see the township pursue the domain name [www.creditriver-mn.gov](http://www.creditriver-mn.gov)

**5. Town Hall Security System**

Currently an alarm rings former Supervisor Dan Casey's phone number. Supervisor Bruce Nilsen volunteered to take that responsibility. Treasurer Holly Batton will pursue that change with Transalarm.

**6. Town Hall Cleaning Quotes**

The town board reviewed the three quotes obtained by Treasurer Holly Batton. Supervisor Bruce Nilsen made a motion to accept EnviroCare's quote subject to attorney review of contract and insurance and bonding requirements, seconded by Supervisor Brent Lawrence, all in favor, motion carried.

**7. Date for Public Hearing for Territory/Stonebridge SSD Rates.**

Treasurer Holly Batton will coordinate with Ryan Brandt of Jacques Whitford EcoCheck.

**8. Banyon Software**

Treasurer Holly Batton apologized for not getting additional information for the board and will do so by the next meeting.

**Other Business**

**1. Discuss Resolution/Letter in Support of Request for Bonding for Scott County Regional Training Facility**

Supervisor Brent Lawrence made a motion requesting Clerk Jerry Maas to send a letter to people on the list received from Prior Lake Mayor Haugen, on behalf of the township, urging support to the SCALE Regional Public Safety Training Facility Bonding. Supervisor Leroy Schommer offered a second, all in favor, motion carried.

**2. Approve Election Judges for Special Township Election May 6<sup>th</sup>**

Motion to approve the list by Supervisor Brent Lawrence, seconded by Supervisor Bruce Nilsen, all in favor, motion carried.

**3. Discuss date for Comp Plan/Incorporation Open House**

Supervisor Bruce Nilsen stated that he wanted numbers that would be achieved by a Fiscal Impact Study prior to the open house because residents will ask questions about the cost of providing services required of a city. Attorney Bob Ruppe stated the costs of providing sewer and water would be significant but other service costs would be "a wash". Part of a fiscal

impact study would be reviewing new sources of revenue as well as the costs of the services. The board instructed Attorney Bob Ruppe to proceed. No date for the open house was established.

**4. Last Review of Weed Ordinance before publishing.**

This ordinance was adopted but changes could be incorporated upon attorney review. Treasurer Holly Batton had not seen or reviewed this ordinance prior to adoption and has questions pertaining to the invoicing of charges and fees. The board instructed the treasurer to work with the attorney to address these concerns.

**5. Stonebridge CSTS Unpaid Phone Bill**

Treasurer Holly Batton processed a check for payment of the delinquent utility bill but desired board input on how to code charges. Supervisor Bruce Nilsen made a motion to utilize developer escrow funds for payment, Supervisor Brent Lawrence offered a second, all in favor, motion carried.

**6. Assignment of charges from emergency CSTS service at 21237 Whisperer Way.**

Treasurer Holly Batton questioned the minutes from a previous meeting that stated emergency service charges would be paid by the service provider. Upon discussion, the board decided the intent was to have charged these fees to the property owner as the cause was not a township, nor an EcoCheck responsibility.

**7. Urban Short Course offered April 24 by Minnesota Association of Townships**

Treasurer Holly Batton intends to attend this class and before sending in registration, inquired about other board member interest. Supervisor Leroy Schommer has already attended a short course that was held in March. Supervisors Bruce Nilsen and Brent Lawrence will consider the all day event.

**8. Township Mail**

Several late charges were paid by the township because Clerk Jerry Maas took the invoices received at the beginning of March from the town hall mailbox to his home office and did not forward these to Treasurer Holly Batton at the town hall prior to her leaving on a weeklong vacation March 15. Treasurer Holly Batton did prepare and print checks for all the claims and invoices in her possession at the town hall prior to her departure. The board stated this issue requires further discussion. Supervisor Brent Lawrence asked how the board could make sure all the mail was being delivered to the township address. Supervisor Leroy Schommer made a motion that all township mail, with the exception of bank statements that will be delivered to the board chair's address, shall be delivered to the town hall address of 18985 Meadow View Blvd. Supervisor Brent Lawrence seconded. All in favor, motion carried.

**9. Territory NPDES/SDS permit due to the MPCA by May 1<sup>st</sup>, 2008**

Engineer Jeff Elliott requested board permission to ask Ryan Brandt to proceed with the permitting application with a cost of preparing the application to be about \$2000. Supervisor Leroy Schommer made a motion to approve the approximate expenditure of \$2000 to Jacques Whitford EcoCheck to prepare and submit the permit application. Supervisor Bruce Nilsen offered a second. All in favor, motion carried.

**10. Property Side Line Setback Adjustment Request by Territory Developer**

Engineer Jeff Elliott reporting receiving a request by the developer to change the property side line setbacks. Supervisor Bruce Nilsen stated that this was a platting issue that would need to be addressed in conjunction with the county.

**11. Data Loggers**

Engineer Jeff Elliott sought board input on behalf of Ryan Brandt as to whether the board wanted to pay for the data logger devices being used in the South Passage CSTS system by the

county last year. The board instructed the devices should be returned to the county because there appeared to be no township benefit.

**12. Landscaping Wood Chips around CSTS equipment**

Engineer Jeff Elliott stated that Ryan Brandt of Jacques Whitford EcoCheck had requested board input on how to address debris from landscaping entering through manhole cover movement when maintaining CSTS portions on individual owner's properties. The board suggested a newsletter may help increase awareness of this issue.

**13. Loehr Ridge Project Status**

Engineer Jeff Elliott stated that although the preliminary plat for Loehr Ridge had expired, he had seen activity regarding a lot split. Supervisor Bruce Nilsen asked Treasurer Holly Batton if there was still escrow money and she responded there is a positive balance.

**14. Attorney Bob Ruppe said he has some minor issues to be addressed**

- a. Clerk Jerry Maas called during the meeting at 10:58 p.m. and 11:15 p.m. to talk to Attorney Bob Ruppe about not getting the public notice published per statute requirements for the affidavits of candidacy filing period. The question to be answered was could the election be legally held on Saturday, May 10<sup>th</sup>, 2008, to comply with the statute requirements. Attorney Bob Ruppe said he would call the Secretary of State's office Tuesday morning to investigate any options and ramifications from the failure to get the notice published as required.
- b. Attorney Bob Ruppe received a phone call from City of Prior Lake administrator Frank Boyles about the Orderly Annexation Agreement and getting that moving forward. The board instructed Attorney Bob Ruppe to set up a meeting with Frank Boyles, Attorney Bob Ruppe, and an available township board member for discussion of the agreement.
- c. Scott County Lezlie Vermillion would like to discuss the County Road 75 agreement. The board requested this be put on the April 21<sup>st</sup>, 2008, board meeting agenda for further discussion.
- d. Attorney Bob Ruppe asked if he could invite himself along to meetings with other consultants and the board said that would be acceptable if he checks in with a board member first.

**15. Street Light at Creekwood Drive and County Road 27**

Supervisor Leroy Schommer stated he had received an email from MVEC regarding the township consideration of payment for the electricity of this light. Supervisor Bruce Nilsen made a motion to accept township responsibility for the electricity of the street light at Creekwood Drive and County Road 27, Supervisor Brent Lawrence offered a second, all in favor, motion carried.

**16. Consider Quote for Grading Roads.**

Art Johnson Trucking had delivered a quote for grading roads. Supervisor Leroy Schommer made a motion to accept the quote of grading at a rate of \$78 per hour. Supervisor Bruce Nilsen made the second. All in favor, motion carried.

**17. Board workshop to discuss different board roles and responsibilities**

Supervisor Leroy Schommer proposed the entire town board meet, along with the township attorney for statute definition/clarification, at the town hall at 6:30 p.m. on Thursday, April 17<sup>th</sup> to discuss whose job is what and to do the groundwork to aide in the expediency of the reorganization meeting. All were in favor of this idea and time.

**Review and Pay Bills.**

**The Board approved the following claims:**

4/7/2008	4274	Southwest Suburban Publishing	Legal Publishing - Prior Lke	\$	1,054.88
4/7/2008	4275	ECM Publishers	Legal Advertising-Lakeville	\$	950.57
4/7/2008	4276	Integra Telecom	Phone Service-Stonebridge	\$	150.00
4/7/2008	4277	Scott Soil & Water	Erosion Inspections - Feb/March	\$	1,040.00
4/7/2008	4278	Bryan Rock Products	Rock Purchase	\$	349.87
4/7/2008	4279	Art Johnson Trucking	March Road Maintenance	\$	8,773.00
4/7/2008	4280	MVEC	Town Hall Electricity	\$	100.52
4/7/2008	4281	MVEC	Electricity-SP Lift Station	\$	26.17
4/7/2008	4282	MVEC	Electricity MH Lift Station	\$	40.16
4/7/2008	4283	Mike's Septic Service	CSTS Pumping	\$	1,365.00
4/7/2008	4284	Scott County Twp Officers Assn	Dues	\$	1,344.89
4/7/2008	4285	Jerry Maas	March 2008 Expense Reimbursement	\$	151.77
4/7/2008	4286	Dennis Karow	Town Hall Snow Plowing	\$	475.00
4/7/2008	4287	Hakanson Anderson Assoc	Feb Engineering	\$	7,907.14
4/7/2008	4288	Campbell Knutson	Legal Review Territory Development	\$	887.80
4/7/2008	4289	Jan Penney	Election Judge	\$	84.00
